

Child Justice

Annual Report 2014

Program Accomplishments

Child Justice was established as a not-for-profit 501(c)3 organization in April 2013 to protect and support children who have suffered physical or sexual abuse at the hands of a parent, primarily by providing pro bono legal services for the child and the protective parent. In 2014, Child Justice:

- **Accepted 9 new cases;**
- **Recruited 22 attorneys** from well-respected law firms to provide pro bono legal services;
- **Pursued 44 active cases;**
- **Protected 52 children;** and
- **Resolved 13 cases** successfully.

Child Justice provided these additional services in 2014:

- **32 Consults.** In addition to the cases in which we were actively involved, we consulted with staff or clients of 25 other cases, providing expert advice and support.
- **19 Court Watches.** Our presence in court helps clients and their attorneys feel supported. In addition, the judge is aware of being observed by a knowledgeable professional who is taking notes. We also debrief afterwards with attorneys who value this opportunity because of the years of experience of our Executive Director and board.
- **5 Briefs.** Child Justice filed 6 Amicus Curiae briefs in appellate court to support other abused children and their protective parents.

Mission

To protect and advocate for children who have been abused or witnessed domestic violence, to support them and their protective parents, and to promote change through community outreach, education and policy recommendations.

Why Child Justice? Because protecting abused children offers them not only immediate safety, but also a chance to reclaim their lives and be healthy, happy, productive members of society. Heartwarming victories underscore how important our work is—even if success sometimes takes years. Our founder, Executive Director Eileen King, has worked with abused children since 1995.

Enormous Need

Each year, family courts sentence 58,000 children to live with abusive, negligent or predatory parents.

A childhood scarred by trauma often means a future marked by depression, risky behavior and continued victimization.
